PROJECTS

Wearable Sensor Network With Embedded Systems for Real Time Motion Analysis and Complex Posture Detection.

📅 03/2023

- The Aim of the project is to develop a hand glove equipped with sensors such as Flex sensor, Accelerometer.
- Flex sensors are placed on fingers which measure the bending of fingers according to a gesture made.
- The data will be in the form of text.
- This text data is then converted into speech through Google text -speech converter.

Password Generator using Java

📅 11/2023

- The idea of this project is to create a core java project that can save passwords in encrypted form.
- With the growing trend of hacking attacks, everyone should be different and complex passwords for their diverse accounts to keep them secure.
- Remembering every password is not humanly possible and noting it down somewhere is not a wise idea.
- Hence, people take the help of Password generators to create strong and complex passwords for their accounts.

Bus Ticket reservation using Java

📅 03/2023

- Travel industry is evolving day to day. As the industry evolves the need to digitalize all the transactions becomes need of the hour.
- This project which is implemented on Java platform helps to manage bus scheduling and bookings.
- This Bus Booking System is a easily deployable, integrated end-to-end system starting from searching bus routes to book them.

TRAINING / COURSES

problem solving in C

Java Course- Mastering the Fundamentals from Scaler Academy

C++ Programming Certification - Sanfoundry

LANGUAGES

English

Tamil

Kannada

EDUCATION

B.E in Electronics and communication

Panimalar Engineering College - Chennai

📅 06/2019 - 06/2023

- Successfully completed courses with overall semester percent of 86.7.

12th in CBSE

Velammal Vidyalaya School

📅 2019

percentage

81.2 / 100

10th in CBSE

Velammal Vidyalaya School

📅 2017

CGPA

9.8 / 10

SKILLS

Coding

Java
